Krystal Seal Art and Photo Bags

**Archival and crystal clear,
2mil (0.05mm) polypropylene.**

Krystal Seal bags, made of 2mil (0.05mm) polypropylene, are an acid free, crystal clear archival environment for the storage and protection of artwork, photographs and documents. Each bag has a resealable flap so that it can be used time and time again.

In the past, protecting your artwork was a time-consuming and cumbersome project. Now all you have to do is slip your art into these bags and fold over the flap which has a resealable adhesive strip on it. In just seconds your art is placed in a safe environment and can be stored in a storage box, flat file, portfolio or print rack. These bags will accept matted and mounted artwork as well. Available in a range of sizes, including traditional and modern sizes for printmaking, photography, drawing, watercolours and inkjet prints. These bags eliminate the need for shrink-wrapping and covering with acetate film, and are far more useful. While presenting your art at shows or in the studio, the art can be removed for viewing and then placed back in the bag and resealed, allowing for repeated access while keeping out dust and dirt. Bags are made to fit the sizes indicated below.

Trading Card Packs have a 1/8" (3mm) tolerance on both sides, sizes up to A3 (310 x 480mm) have a 1/4" (6mm) tolerance on both sides and sizes 16"x 20" (406 x 508mm) and larger have a 1/2" (12mm) of tolerance on both sides.

Available in packages of 25.

- Archival, acid free and crystal clear.
- Sizes for fine art, photographs and inkjet prints.
- Accepts mounted and matted art work.
- Provides a professional finish for your presentations.
- Perfect for home, gallery, tradeshow and outdoor shows.
